

The American Corner Kandy hosts screening of

# GIRL WALK 2012

Followed by a discussion with Ellen Fisher

**Girl Walk // All Day** is a feature-length dance music video and tale of urban exploration that follow three dancers across New York City. They turn the city's sidewalks, parks, and stadiums into an evolving stage as a story of rebellion, love, and discovery unfolds. Shot entirely in public spaces, and funded entirely by crowd-sourcing, **Girl Walk // All Day** is a statement about the power of community and public space. Set to the album **All Day** by mashup musician Girl Talk, it's also an insanely fun love letter to New York.

The discussion will be led by Ellen Fisher, Senior Fulbright Scholar, dancer, videographer and educator. She has a long history studying Sri Lankan dance and culture. She presently performs with the Meredith Monk Ensemble based in New York City.

**Saturday, June 15**
